MC 312

5-AXIS CNC MACHINING CENTER.

Centro di lavoro a 5 assi CNC, dedicato alla lavorazione di profili in alluminio, acciaio, PVC e leghe leggere.

Equipaggiato con Morse Motorizzate Indipendenti (sistema MMI), ad azionamento combinato pneumatico/elettronico dedicato al posizionamento in automatico e contemporaneo delle morse.

Elettromandrino 10.0kW (S1), 24000rpm, con raffreddamento a liquido, con attacco portautensili HSK-63F.

Il magazzino utensili a 12 posizioni situato sul montante mobile. Il cambio utensile può essere effettuato in qualsiasi posizione del campo di lavoro.

Velocità dell'asse X fino a 130 m/min.

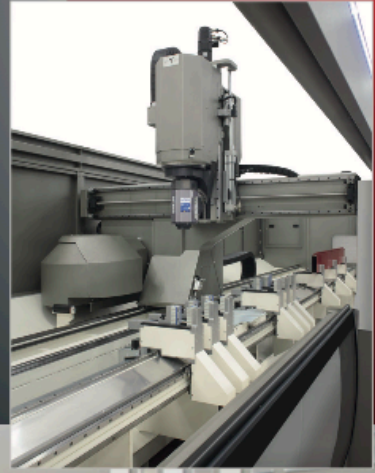

CNC 5 -axis machining centre, dedicated to the working of aluminium, steel, PVC and light alloy profiles.

It's equipped with a device activated by a pneumatic/electronic combination dedicated to the automatic contemporary movement of the clamps (MMI system). Electrospindle 10.0kW (S1), 24000rpm, liquid cooled, with HSK-63F toolholder. 12-position tool magazine. Tool changes can be made at any position in the working range. X-axis speed up to 130 m/min.
